DETAILED ACTION

Applicant's election of species I, figures 2, 3, 4, 8, 10 and 11 (claims 1-13), filed 10/18/04, has been acknowledged.

This application contains claims 14 to 24 drawn to an invention non-elected without traverse. However, Applicant's election still reads on several species. The previous restriction is withdrawn and a detailed restriction is detailed and listed below:

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, figure 2

Sub-Species II, figures 4 and 10

Sub-species III, figures 4 and 11

Species IV, figure 3

Species V, figure 5

Sub-species VI, figures 6 and 7A-7I

Species VII, figure 12

Sub-Species VIII, figure 13

Sub-Species IX, figure 14

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic to all figures.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

Art Unit: 2826

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander O Williams whose telephone number is (571) 272 1924. The examiner can normally be reached on M-F 6:30-7:00PM.
